

Un progetto europeo sull'accesso venoso neonatale: il NEVAT

Fiammetta Piersigilli

NEVAT - Neonatal European Vascular Access Team

La nutrizione parenterale ha permesso la sopravvivenza di neonati estremamente pretermine

Quasi tutti i neonati pretermine hanno un catetere venoso centrale

accessi vascolari

Linee guida nazionali

Corsi in varie città sugli
accessi vascolari neonatali

Congresso nazionale

E in Europa?

Mancanza di una comunità scientifica dedicata
agli accessi vascolari neonatali

Primi passi...

Contattare dei professionisti interessati
alla gestione delle vie centrali

Creare un Gruppo che avesse degli scopi
comuni

Facilitare interazioni

Favorire la ricerca

Primi passi...

Primi contatti via mail

Riunioni on-line

Neonatologi

Infermieri

Anestesisti

Chirurghi

Scopi comuni

Facilitare le interazioni tra professionisti interessati all'accesso vascolare in ambito nazionale / internazionale

Creare un lingua comune (creazione di protocolli)

Diffondere la conoscenza di nuove tecniche / materiali (Interazione con l'industria)

Facilitare l'esecuzione di trial clinici multicentrici

PROTOCOLS – Neonatal vascular access

1. Protocol for the proper choice of vascular access device in NICU - **Mauro Pittiruti** - Giovanni Barone - Brenda Van Delft- Queenie Vranckaert – Barbara De Bisschop - Ignacio Oulego
2. Insertion bundle of umbilical venous catheter - **Vito D’Andrea** - Fiammetta Piersigilli - Marie Julie DeBuff – Bernhard Schwabberger
3. Insertion bundle of epicutaneo cava catheter - **Giovanni Barone** - Shtenyu Sboyadzhiev - Pierre Maton – Suzy Van Eenoo
4. Insertion bundle of ultrasound guided (CICC/FICC) catheters and tunneling - **Christian Breschan** - Mauro Pittiruti - Robin Van Der Lee - Thierry Pirrotte - Ignacio Oulego - Tobias Werther
5. Insertion bundle of peripheral venous access (incl. midlines) - **Roland Van Rens** – Robin Van der Lee - Agnes Van der Hoogen - Carmen Rodriguez - Pierre Maton
6. Insertion bundle of umbilical arterial and peripheral arterial catheter - **Nadya Youssef** Fiammetta Piersigilli - Thierry Pirotte - Rafik Ben Ammar - Bernhard Schwabberger- Barbara De Bisschop
7. Protocol for the management of the exit site for all VADs - **Fiammetta Piersigilli**- Carmen Rodriguez – Suzy Van Eenoo
8. Protocol for the management of the infusion lines and infection prevention - **Agnes Van den Hoogen** - Roland Van Rens - Pierre Maton - Brenda Van Delft – Suzy Van Eenoo
9. Protocol for insertion/management of intraosseous access - **Bernhard Schwabberger** – Fiammetta Piersigilli
10. Protocol for sedation during insertion of vascular access - **Mónica Marçal** - **Tobias Werther** - Vito D’Andrea - **Madalena Tuna** - **Anabela Salazar** - Fiammetta Piersigilli— Robin Van der Lee
