GREETING MESSAGE

Dear colleagues & friends,

on behalf of WINFOCUS, the 'World Interactive Network Focused On Critical Ultrasound', we are honored to invite you to attend the '6th World Congress on Ultrasound in Emergency & Critical Care - Toward an International Consensus on Ultrasound Resuscitation', to be held in Rome (Italy) on October 7-9, 2010, hosted by 'UCSC University' and 'A. Gemelli University Hospital'.

'Point-of-care ultrasound', available in any kind of critical setting, was viewed as a technical impossibility until a decade ago. However, through the work of multiple dedicated researchers and authors around the world, it is now one of the fastest spreading imaging applications in a variety of clinical specialties including critical care, surgery, emergency medicine, anesthesiology, general internal medicine, pediatrics and others.

The novel concept of point-of-care 'Ultrasound Resuscitation' has recently evolved with the availability of high quality portable ultrasound devices, in combination with an increasing number of clinicians who have developed point-of-care ultrasound skills to help manage patients in 'critical' situations. Clinical scenarios turn into 'critical' ones when there is a performance gap between the patient needs and the resources available for decision making and problem solving (Crisis Resource Management). This typically occurs in the acutely ill patient (Emergency US/Intensive/ Critical Care US), and/or where human or technical resources are limited (Screening US/Triage US/Remote US/Primary US).

Point-of-care image acquisition and interpretation, integrated with life support protocols (BLS, ALS/ACLS, ATLS, PHTLS/PTC, PALS, etc.), which follow the 'ABCDE' or 'Head-to-Toes' evaluation methodology allow for rapid and effective decision making, enhance triage, diagnosis, therapy, monitoring, and patient follow up.

The 'Ultrasound Life Support' concept, qualifying this new approach to resuscitation, represents a new integrated clinical strategy which is promoted world-wide by WINFOCUS with the support of an increasing number of national and International scientific societies and institutions.

As clinical practice and research grow in the field, there is also an emerging need for 'consensus' on its interpretation and performance. In addition, future research and ultrasound equipment development may be improved and made more efficient by the creation of common terminology and protocols as well as development of the most up-to-date standards. That is why, following the successful start up of the International Consensus Conferences on clinical (Pleural & Lung Ultrasound) and procedural applications (US-guided vascular access), Winfocus announced a new series of EBM and consensus-based meetings that over 2010-2012 will cover the overall 'ABCDE' and 'Head-to-Toes' management of the critical patient. First targeting major focused applications (Focused Echocardiography, Focused Airway Ultrasound, FAST, etc ...), then reviewing and standardizing multifocused approaches as the 'FAST ABCDE' in resuscitation or the combined 'Lung/Heart/Vein Ultrasound' in dyspnea or shock states.

For this purpose, our meeting will host exciting 'Ultrasound Life Support' courses and workshops, run by a worldwide cutting-edge Faculty.

Outstanding satellite events will also enrich your experience, such as the '1st International Consensus Conference on Pleural & Lung Ultrasound' (3rd and last session), the '1st International Consensus Conference on US-guided Vascular Access', the 'GAVeCeLT 2010', the '4th Winfocus Italy', and the '3rd Winfocus Scandinavia Conference' (the latter with joint sessions hosted in Denmark).

You can submit your papers by May 31, 2010, through our website at www.winfocus.org/world/rome2010/abstracts. All the accepted papers will be published in the third 2010 issue of the 'Critical Ultrasound Journal', the new Springer peer-review scientific publication dedicated to point-of-care ultrasound in critical scenarios, official Journal of Winfocus. Authors of best papers will be also rewarded with exciting prizes!

Please find detailed programs and links of all the events at www.winfocus.org/world/rome2010, or contact our Organizing Secretariat at noema.secretariat@winfocus.org, or (Ph) +39 051230385, and (Fax) +39 051221894.

We are looking forward to welcome you for all these exciting events, through the most beautiful Italian scenarios!

Michael Blaivas (Atlanta, GA, USA)
Winfocus President

HOW TO REGISTER

On-line registration on www.noemacongressi.it - www.winfocus.org/world/rome2010

Registration fee to 'ULTRASOUND LIFE SUPPORT' CERTIFIED PRE-CONGRESS COURSES includes:

- Scientific sessions and practical tracks
- Congress Kit
- Certificate of attendance
- Those registered at A6 [USLS - BL1P Refresh] course can register for free at A7 [USLS - BL1P Certification] module

Each course has a limited number of participants.

CME credits will be requested for each Course.

Registration fee to GAVeCeLT WINFOCUS COURSES 2010 includes:

- Scientific sessions and practical tracks
- Congress Kit
- Certificate of attendance

Each course has a limited number of participants.

Registration fee to 6TH WINFOCUS WORLD CONGRESS ON ULTRASOUND IN EMERGENCY & CRITICAL CARE includes:

- Plenary sessions
- Parallel sessions (Tracks; Round Tables; International Consensus Conference)* **
- Congress Kit
- Certificate of attendance

* *It is compulsory to select the Parallel sessions you are interested in while registering.*

** *For Nurses and Paramedics, special Parallel Tracks and Round Table are scheduled (see program at a glance).*

CME credits will be requested.

Please note that registration to Pre-congress Courses and Congress are not connected.

DISCOUNTED FEE FOR B, C & D SOCIO-ECONOMIC COUNTRY CATEGORIES

To grant the widest access to our 2010 milestone meeting, according to Winfocus policy, registration fees are differentiated according to socio-economic country profile (see also membership area on www.winfocus.org). Winfocus members belonging to B, C & D Country Categories (middle-low and low income countries) may have more than 50% reduced fee, provided if they prove their state (send an ID or job certificate to noema.secretariat@winfocus.org or fax it + 39 051 221894), after completing the online registration process. See the country listed according to World Bank socio-economic categories or download the PDF document on www.winfocus.org.

WINFOCUS MEMBERS

Discount is applicable only to Winfocus members regularly paying '2010 membership fee' before May 31, 2010.

IMPORTANT DATES

Please remember that:

- Deadline for registration at a reduced rate is **September 5, 2010**;
- Deadline for registration is **September 30, 2010**.

WINFOCUS SCANDINAVIA CONGRESS

The '3rd Winfocus Scandinavia Congress' is being held in Denmark, as satellite pre-congress event on October 4-6, 2010. Please find further information & registration process at www.winfocus.org/scandinavia or www.usabcd.org.

POSTERS - ABSTRACTS

Those interested in presenting contributions on topics relative to the congress may send their material exclusively uploading them at www.winfocus.org/world/rome2010/abstracts no later than May 31, 2010.

This material can be presented as poster and/or oral presentation at:

- 6th WINFOCUS World joint to 4th WINFOCUS Italy
- 1st International Consensus Conference on Pleural & Lung UltraSound
- 1st International Consensus Conference on UltraSound-guided Vascular Access

Works will be evaluated by **WINFOCUS & CONSENSUS LIAISON COMMITTEES** and acknowledged for presentation. Acceptance will be sent to the first author indicated on the form, contextually to the date of display.

Accepted papers will be published on the third 2010 issue of the '**Critical Ultrasound Journal**', official Journal of Winfocus, dedicated to point-of-care ultrasound in critical scenarios, published by Springer.

All the papers must be written or presented in English.

Oral presentation

Maximum time available for each oral presentation is 7 minutes for 5 slides (5 min. presentation + 2 min. discussion). Speakers must be regularly registered to the Congress, unless part of the faculty.

Poster presentation

Maximum size for each poster area is 95 cm (width) x 150 cm (height). Presenters must be regularly registered to the Congress, unless part of the faculty. In scheduled sessions, presenters could be required to stand aside their work to present it to attendees.

Authors' Prizes

The author of the best paper in each event will have the registration fee waived for the attended event and for all the 2011 WINFOCUS events worldwide!

The first author of the best paper of all categories will have a unique prize of 1.000 euros!

CME CREDITS

Italian CME credits for Pre-Congress Courses and Congress will be requested for the following professional figures:

- Physicians
- Nurses/paramedics

Participation will be checked through entrance control of personal badges, which will be provided onsite to participants by the Organizing Secretariat.

EACCME CREDITS

European and American CME credits for the Congress will be requested for physicians.

Participation will be checked through entrance control of personal badges, which will be provided onsite to participants by the Organizing Secretariat.

WINFOCUS CERTIFICATION

WINFOCUS attendance certificates will be issued to each participant by the Organizing Secretariat at the end of each event.

Any 'Ultrasound Life Support Course', held aside the conference, may also represent the entry module for further 'competence-based' international certification (see details at www.winfocus.org/uscme/uscmc).
